Education

2025 – 2029 | **B.Sc. in Psychology (Qiushi Honor's Program)**
Zhejiang University (*Hangzhou, China*)

Expected June 2029. GPA 3.93/4.3 (87.28/100).

Methods & statistics: Experimental Design and Statistics in Psychology; Structural Equation Modeling and Its Applications; Research Techniques in Psychology.

Computing: Psychology Experiment Programming; Lab and Fundamentals of Programming.

Mathematics, logic & physics: Probability and Mathematical Statistics; Linear Algebra (H); Calculus (H); Logics (H); Philosophical Logic; University Physics and Experiment.

Foundations: General Psychology; Language, Mind and Brain; Theory and Practice in Psychology; Ethics and Philosophy of Artificial Intelligence.

2026 | **Oxford Prospects Winter Visit**
University of Oxford (*Oxford, United Kingdom*)

Psychology: Interdisciplinary Frontiers of Behaviour and Mind in the Age of AI (grade A+).

Received the Best Presentation Award and the Best Film Award.

Spring 2027 | **College of Arts and Sciences Exchange Program**
Cornell University (*Ithaca, NY, USA*)

Undergraduate coursework in Cognitive Science.

Research Interests & Training

Research Focus: **Imaging & Imagery** (Program Lead At Zhejiang University). How imagination and perception together build the world we call "Reality": (i) the cognitive and neural mechanisms of imagination and its relation to perception, studied with behavioral experiments and high-field task fMRI combined with MR-compatible EEG/ERP; (ii) a computational toolkit over resting-state fMRI that combines brain entropy, functional connectivity and EEG to characterise brain-state dynamics.

Lab Rotations: Rotations in social, clinical, developmental and cognitive neuroscience labs, progressively focusing on cognitive neuroscience as a route to consciousness.

Methodological & Philosophical Training: National and international academic conferences and philosophy-of-mind seminars; Consciousness Science Reading Group (Swarma Club); Interdisciplinary Reading Club of Aphantasia (IRCA).

Technical Skills: Behavioural experiments, fMRI, EEG (including MR-compatible EEG/ERP), eye-tracking; computational modelling; Python, C, MATLAB, PsychoPy and jsPsych.

Research Experience

Undergraduate Researcher, Dr. Yuzheng Hu[1] and Dr. Xiaoqing Gao[2]
Zhejiang University

[1]Department of Psychology and Behavioral Sciences; [2]Center for Psychological Sciences.

Member, Navigating Talent Program, Dr. Dian Lyu
State Key Laboratory of Brain-Machine Intelligence, Zhejiang University

2026 – Present

BrainState: a brain-state measurement toolkit
Zhejiang University

Dynamic brain entropy computed over sliding windows, clustered by k-means into recurrent brain states, and described by occupancy and dwell time; the same measures then go to patient groups against matched controls.

2026 – Present

Visual Mental Imagery and Aphantasia
Zhejiang University, in collaboration with Dr. Jianghao Liu, Paris Brain Institute (ICM)

Research content: using signal detection theory to study how imagination affects perception.

Design and methods: the protocol pairs a near-threshold perceptual detection task with an imagery task, plus electrophysiological and neuromodulation measures of visual-cortical and prefrontal involvement.

Role: built the experimental platform at Zhejiang University and was responsible for participant recruitment, data collection and analysis, and quality control.

Imaging studies are in preparation: a simultaneous fMRI–EEG study of where and when imagery enters perception, and a TMS–EEG study of whether the visual-cortical node is necessary.

2026

Acquired Silent Reading Disorder: A Single-Case Study
Zhejiang University

Case: a 19-year-old who lost spontaneous inner speech after a month of "eye–mind direct" speed-reading practice (forced suppression of subvocalization plus forced acceleration), and could no longer understand text when reading silently without external support.

Experiments: a remote session ($\sim$2.5 h) with interview, YBOCS/VVIQ/BAIS, rapid automatized naming and five jsPsych tasks (three writing systems, RSVP, homophone judgement, manual Stroop, rapid identification); then an in-lab picture–text matching task over one to ten characters under five pacing conditions (no aid; 4, 2, 1 and 0.5 Hz).

Account I proposed: a learned gating deficit in auditory imagery — the generation is intact, but voluntary initiation is blocked, and external rhythm or movement can drive it.

Follow-up: he later recovered at a local hospital after low-frequency TMS over the right SMA, consistent with what the account predicts. Wish him well!

Honors & Awards

Nov 2026 | **Eighth Place, Men's 5000 m (Undergraduate)**
Zhejiang University Sports Meet.

Oct 2026 | **First-Class Scholarship (2025–2026 Academic Year)**
Zhejiang University.

Oct 2026 | **Outstanding Student**
Zhejiang University.

Oct 2026 | **Academic Excellence Pacesetter & International Exchange Pacesetter**
Zhejiang University.

Aug 2026 | **First Prize, "Mind Science and Intelligent Future" International Summer School for Top Students in Psychology**
Faculty of Psychology, Beijing Normal University.

Mar 2026 | **Excellent Poster Award, Psychology (Qiushi Honor's Program) Research Exhibition**
Department of Psychology and Behavioral Sciences, Zhejiang University.

Apr 2025 | **Best Debater & Best Team, Design Intelligence Award (DIA) Debate Competition**

Talks & Presentations

2025 – 2026 | **Lead Organizer & Initiator, Psychology Outreach Series, 2050@2026 Global Youth Gathering**
Hangzhou, China

Designed and delivered the keynote *Where Is the Mind?*; organized and moderated the *This Is Psychology* forum; and facilitated the *The Psych Crew Assembles* roundtable. Also ran three experiential sessions — nature therapy, movement therapy and an interactive exhibition — handling practitioner invitations, participant logistics and on-site support.

Sep 2026 | ***The Mind's Eye***
2050 Roundtable "The Form and Substance of Future Perception" (*Hangzhou, China*)

On perception as construction, mental imagery, and what aphantasia reveals about seeing.

Sep 2026 | ***Connecting the Dots***
Department of Psychology and Behavioral Sciences, Zhejiang University

An interactive talk for the incoming undergraduate cohort.

Sep 2026 | ***Is Seeing Believing?***
Yuqian High School, Lin'an

A talk on mind and brain science, built around an interactive demonstration.

Mar 2026 | ***The Science of Learning***
Hangzhou No. 2 High School

On how psychology and brain science are actually done, and what they say about learning.

Leadership & Service

2026 – Present | **Founder and Coordinator, Consciousness Observers (CO-LAB)**
Zhejiang University

Founded an interdisciplinary consciousness-research group spanning several departments; designed and maintain its website; convened its first event in the Department of Psychology and Behavioral Sciences.

2026 – Present | **Founder, "Concepts and Approaches in Psychology" Reading Group**
Department of Psychology and Behavioral Sciences, Zhejiang University

2026 – 2027 | **Peer Mentor, Talented Youth Initiative**
School of Psychological and Cognitive Sciences, Peking University

2026 – 2027 | **Peer Mentor Group Leader, Psychology (Qiushi Honor's Program) & Brain-Machine Intelligence Class**
Zhejiang University

2026 – Present | **Class Monitor, Psychology (Qiushi Honor's Program) 2501**
Chu Kochen Honors College, Zhejiang University

2026 – Present | **Member, Science Popularization Center**
Office of Scitech Research, Zhejiang University

Aug 2026 | **Volunteer, Sino-European International Conference on Human Cognition and Artificial Intelligence**

English: IELTS 8.0

Beyond Academics

I'm a long-distance runner and a proud veteran of school and college broadcast-calisthenics teams, from primary school all the way through university. I also enjoy ball sports—enthusiastically rather than skillfully—and I'm always game for a new one. Piano has stayed with me since kindergarten; I especially love Asian-style favorites such as The Butterfly Lovers, River Flows in You, and Secret Base, and I'd be happy to play for you!
